ABOUT ME

Customer data and marketing analytics professional with 4+ years of international experience across e-commerce, manufacturing, shipping, FinTech, and IoT. Experienced in customer journey mapping, multi-channel data activation, and translating complex datasets into actionable MarTech and data strategy recommendations. Skilled in cross-functional stakeholder coordination across marketing, data, and technology teams, and in driving data-driven use-case planning through agile project management frameworks. Seeking a senior analyst role to shape customer data architecture and marketing technology roadmaps for measurable business impact.

COMPETENCIES

MarTech Strategy & Customer Data

- Customer Journey Mapping & behavioural analysis
- First-party data thinking & customer data activation
- Campaign performance optimisation & attribution
- Personalisation insights & conversion optimisation
- Customer segmentation & cohort analysis
- Multi-market coverage (EMEA, APAC)

Analytics & Data

- Marketing KPI framework design
- Funnel & conversion analysis
- E-commerce & campaign ROI analytics
- A/B testing & experiment design
- Data quality, tracking & QA
- C-level data storytelling

Project & Stakeholder Management

- Complex stakeholder coordination (Marketing / IT / Data / Legal)
 - Project and requirements management (Scrum, SAFe)
 - Cross-functional team coordination
 - Go-to-market strategy support
-

- Power BI — Microsoft Certified: Power BI Data Analyst Associate (PL-300)
 - Qlik Sense
 - Google Looker Studio
 - SAP Analytics
 - MS Excel
 - JIRA, Confluence, MS PowerPoint
-

WORK EXPERIENCE

Hapag-Lloyd AG — Hamburg | Shipping / Logistics sector

Working Student, Project Coordination Customer Experience | 2024 – 2025

- **Customer Journey & Behavioural Analysis:** Mapped booking-related customer journeys and analysed user research data to identify friction points and drop-off patterns across digital touchpoints; translated findings into structured performance summaries that directly influenced product backlog prioritisation and customer experience improvement decisions.
 - **Data Activation & Agile Delivery:** Tracked data artefacts across agile sprints, ensured measurement consistency, and QA'd reporting outputs before executive sprint reviews — supporting evidence-based decision-making on customer-facing product features.
-

ECE Group Hamburg — Hamburg | Marketplace / Real Estate sector

Working Student, Business Development | 2024

- **Market Segmentation & Intelligence:** Conducted competitive analysis and market sizing across automotive and furniture retail segments; built structured benchmarking frameworks translating market data into opportunity scoring for strategic planning.
 - **Insight Delivery:** Packaged analytical findings into executive-ready reports influencing channel prioritisation and business development pipeline decisions.
-

Hongkong and Shanghai Banking Corporation Limited

Strategy Project Management Officer (PMO) | 2021 – 2022

- **Programme Analytics & Financial Attribution:** Owned financial performance analytics for a USD 8M digital transformation programme; built multi-dimensional budget variance dashboards, tracked spend attribution across 6 workstreams, and produced weekly burn-rate reports escalated to C-suite.
 - **Stakeholder Data Storytelling:** Acted as bridge between technical data teams and C-level decision-makers — translated complex programme status into structured insight narratives that drove investment and prioritisation decisions at executive reviews.
-

Intelligent Power Corporation Limited — IoT / IT sector

Marketing Manager | 2020

- **Campaign Analytics & ROI Measurement:** Tracked and reported marketing performance KPIs across 4 B2B product launch campaigns; ROI analysis evidenced direct event-to-revenue impact of 4.6M CNY in signed contracts.
- **Funnel Optimisation & Conversion Analytics:** Analysed lead capture and pipeline conversion data from trade fair activations; identified drop-off stages and recommended targeting adjustments that improved qualified lead rate.
- **Competitive Intelligence:** Built recurring competitor monitoring reports covering pricing, positioning, and channel activity; delivered strategic insights informing product go-to-market adjustments.
- **Segmentation & Customer Data Activation:** Developed customer segmentation models to differentiate messaging across B2B verticals; supported

channel selection decisions with data-driven audience analysis and first-party behavioural insights.

Moli Media Corporation Limited — E-commerce live-stream agency

Marketing & Project Coordinator | 2019

- **E-commerce Funnel & Audience Analytics:** Analysed user behaviour, audience engagement, and conversion data across live-stream e-commerce events for 4,000+ attendees; produced post-event performance reports covering funnel drop-off, retention signals, and revenue attribution.
 - **KOL Performance Tracking:** Measured and reported KOL campaign effectiveness — tracking reach, engagement rate, and audience cohort behaviour across digital and live-event channels to optimise influencer spend allocation.
 - **Insight-to-Action Reporting:** Delivered structured analytical reports to senior management with data-backed recommendations that demonstrably improved targeting and format decisions for subsequent campaigns.
-

GRG Banking Corporation Limited — ATM Manufacturing sector

Product Marketing Manager | 2019

- **Portfolio Gap & Market Analysis:** Identified product portfolio gaps across 6 lines through structured customer needs analysis and competitor benchmarking; findings directly shaped engineering development priorities and roadmap planning.
 - **Sales Funnel & Conversion Tracking:** Analysed trade fair lead pipelines and pre-sales conversion data for 100+ B2B client interactions; built performance summaries that optimised sales team targeting and follow-up sequencing.
 - **Multi-market Campaign Performance:** Monitored marketing performance across EMEA and APAC markets; translated channel and audience data into actionable recommendations for campaign spend allocation.
-

STUDENT CONSULTING EXPERIENCE

VfB Stuttgart — Lüneburg & Stuttgart

- **KPI Design:** Developed an impact measurement framework and cost-benefit tracking methodology for sustainability projects, presenting findings and recommendations to club management.
 - **Data-Driven Post-Event Evaluation:** Delivered structured analysis that enabled evidence-based post-event evaluation across the club's sustainability programme.
-
